GST-SMT-1 Surface Mount Soldering & Re-Work Tool Kit

Use the GST-SMT-1 Tool Kit to:

- Solder Surface Mount devices to PCB
- Re-work existing surface mount circuitry
- Solder devices to Global Specialties GSPA-K1 and GSPA-K2 surface mount adapter kits

The Global Specialties Model GST-SMT-1 is a high quality tool kit used to solder and rework surface mount devices and circuitry. The set includes 11 tools commonly used for working with surface mount components, such as anti-static tweezers with replaceable tips, suction pen with 3 different sized tips, soldering iron and magnifier. The kit comes complete in a convenient molded plastic case. The GST-SMT-1 is perfect for educational experiments, engineering and development, and repair applications. The GST-SMT-1 can also be used to attach surface mount components to Global's GSPA-K1 and GSPA-K2 surface mount adapter kits.

Features:

- ▶ 11 high quality tools
- ▶ Includes anti-static tools for use in sensitive circuitry
- ▶ Stand alone magnifier allows for easy parts inspection
- ▶ Durable plastic case
- ▶ Compatible with Global Specialties surface mount adapter kits
- ▶ Ideal for service, repair, prototyping, engineering and educational use

Specifications

The GST-SMT-1 includes:

- (3) Anti-Static Tweezers
- (1) Suction Pen
- (1) Soldering Iron
- (1) Magnifier
- (5) Solder Tools
